LED Controller Series

SH LED Lighting Products

LED Flex Lighting Series

LED Flex Lighting Series adopts a kind super flexible PCB board as base and 18 pcs super bright LED as its luminous body . Viewing angle is 120°...[more](#)

LED Floodlighting Series

LED Floodlighting Series adopts 1W high power LED as its luminous body, which is of high brightness, stable performance with low power consumption, little heat diffusing and long longevity...[more](#)

LED Linear Lighting Series

LED Linear Lighting Series 30 pcs super bright Piranha Led as its luminous body. These Leds are evenly set on the PCB board. These tubes are exquisite and can be connected via male and female connectors... [more](#)

LED Down Lighting Series

LED Down Lighting Series Aluminium material with good heat conduction, original color or black color can be made.... [more](#)

LED Controller Series

The DMX512 controller series and CT308 controller series can control our RGB products and the same products in the market.... [more](#)
